Uniden Corded+Cordless Phone with SOS Pendant

PART No. UNI-SSE47+1P

PRICE AUD

GST \$22.73

INQUIRY DATE 07 Apr 2025

Call for HELP!

The Emergency Pendant is perfect for Peace of Mind by allowing your call for help to be answered by people of your choice. The pendant will call up to 5 different phone numbers of your choice. It will call one at a time and if not answered, the pendant will move onto the next phone number in your list. Once a call is accepted by your support person you can talk to them via the pendant.

Answer incoming calls

Incoming calls can be answered by the corded or cordless phones, whichever is close at hand. Better still, if you press the button on the emergency pendant while the phone is ringing you can answer the call directly on the pendant - no more rushing to the phone when it rings.

The Uniden Emergency Alert Pendant is splashproof allowing you to wear it in damp environments and also outside so you can always remain connected in case of an emergency. It is ideal for the Elderly or High Dependency People as the push of the Help button enables contact for assistance to be made. Up to a total of 6 devices (cordless handsets or Emergency Alert Pendants) can operate with the Uniden SSE Cordless Phone which allows you to have an Emergency Pendant in the Bathroom, Bedroom or Living Room.

The SS E47+1P system features a Cordless Handset for Mobility and a Corded Phone which is perfect for use in Power Failure Conditions (backup power supply required). The system is equipped with an Integrated Digital Answering Machine with Slow Playback, ensuring you never miss that important call. The XDECT Digital Cordless Phones offer Extended Digital Coverage by utilising a Diversity Antenna System for Optimal Reception and Clarity – by mitigating multi-path errors. It also features a High Gain Antenna for greater range and to eliminate drop out areas in your home. The SS E37+1P is equipped
