Numeric Keypad Access Kit

PART No. **KPAD-KIT**

PRICE AUD **\$282.00**

GST **\$0.00**

INQUIRY DATE **29 Mar 2024**

This numeric keypad is supplied as a kit with a controller and installation instructions. It can be used to activate almost any motorised door, gate or lock release. Simple electrical skills are needed to install the kit. Operates from 12-14 Volts which is usually available from the door motor. A separate power supply is available if needed.

This keypad is for installation indoors or in sheltered locations. Weatherproof and vandal resistant keypads are also available.
