iPad Mounting System

The ultimate accessory! Our terrific mounting system has three parts: a mounting platform, a light duty mounting arm, and a clamp. The mounting platform is designed for easy access to all of the iPad's electronic ports. It also has two flexible cords to securely hold the iPad. The light duty mounting arm expands from 36cm to 60cm for maximum flexibility and reach. The clamp allows you to easily mount the system to a wheelchair or tabletop. Mounting System works with both iPad 1, iPad 2 or iPad w/retina display

It is also compatible with many other 10" Tablets such as the Samsung Galaxy 10" tablet range although due to the wide screen format of the Samsung, the elastic straps do cover the very edges of the screen.

Includes: 1 mounting platform, 1 light duty mounting arm, and 1 clamp. Weight: 1.5kg.

PLEASE NOTE: iPad not included.
